

RETROSUBURBIA

THE DOWNSHIFTER'S GUIDE TO A RESILIENT FUTURE

CHAPTER 6: WOOD ENERGY

QUESTIONS:

- What is your emotional and practical relationship with fire?
- Brainstorm sources of firewood that you can access in your local area.

ACTIVITIES:

- Hold this meeting of your group around an open fire in a backyard and/or while enjoying a meal cooked on a BBQ or woodstove
- Make a metal drum cook stove (or rocket stove if you are keen)
- If there are members of the group who have never split wood or lit a fire, hold a practical session to allow them to practice.
